

Euro Coil

INSIDE EVERY COILWRAP YOU'LL FIND GOLD BOND'S CUSTOM-BLENDED "JOY" COTTON BATTING - THE DENSEST MOST DURABLE IN THE WORLD - USING NOTHING BUT THE PUREST 50% LONG-STAPLE COTTON PICKER AND 50% COTTON LINTER AVAILABLE. WE'VE BEEN BLENDING IT OURSELVES FOR OVER A HUNDRED YEARS.

THOUGH IT'S A STURDY SLEEPING SURFACE, THE LIGHT WEIGHT EUROCOIL FOLDS EASILY INTO ANY FUTON FRAME.

OUR FUTONS HAVE 25% MORE LACE TUFTS THAN THE COMPETITION. TUFTS ARE TIED INSIDE THE MATTRESS TO RESIST WEAR.

AS EACH SPRING IS FORMED, BARREL-SHAPED FOR MAXIMUM TENSION, IT IS HEAT-TEMPURED TO 600 DEGREES. THIS PROCESS CAUSES THE COIL TO "REMEMBER" ITS SHAPE AND WILL PERFORM, AS DESIGNED, LONG AFTER STANDARD COILS HAVE LOST THEIR BOUNCE.

ON EITHER SIDE OF THE INNERSPRING UNIT S A 3" LAYER OF HIGH-RESILIENCY CONVOLUTED FOAM, ENHANCING THE INDEPENDENT ACTION OF THE COILS.

EACH PRECOMPRESSED COIL IS ENCASED WITHIN A PREMIUM QUALITY, NON-WOVEN FABRIC POCKET AND SECURED TO A DURABLE, YET PLIABLE STABILIZER PANEL. THIS CREATES A TIGHTLY-LOCKED UNIT WHERE EACH SPRING WORKS STRAIGHT UP AND DOWN, CONFORMING TOE EACH SLEEPERS BODY ELIMINATING "ROLL TOGETHER."
